

TRAVEL ADVISORY FOR OUT-OF-STATE STUDENTS

Pursuant to Governor Lamont's Executive Order No. 7III, "anyone traveling into Connecticut from certain states are directed to self-quarantine for a 14-day period from the time of last contact within the identified state."

[List of Travel Advisory States](#)

This order requires travelers arriving in Connecticut from restricted states to submit Connecticut's [online travel form](#) and self-quarantine for 14 days after arrival.

To further protect our UConn community, we request all of the following of our students coming from one of these states:

- **Prior to leaving your home state**, upload a negative COVID-19 PCR test collected within 14 days of your scheduled travel to Connecticut to the [SHaW Patient Portal](#). Once logged into the portal, select "Document Upload" from the top menu bar, then select "COVID 19 Results and Clearance" in the Document Type dropdown. Please account for the time it may take to receive your test result.
 - If your pre-travel result is positive, do not travel until you have been medically cleared from isolation. [Clearance to end self-isolation form](#)
- **Upon arrival in Connecticut**, obtain a COVID-19 PCR test.
 - Residential students will be tested as part of their dorm check-in process.
 - Non-Residential students will receive email notification to upload a second test result.
- **Self-quarantine for 14 days** after arrival to Connecticut. (You must quarantine even if your test is negative.)
 - This state-mandated 14-day self-quarantine will impact your ability to attend in-person classes so plan accordingly.

Please contact us directly with any questions at studenthealth@uconn.edu or by calling our Advice Nurse at 860-486-4700, option 1, option 2.

We look forward to seeing you this fall!
